

Web Development Midterm

Date: 27/04/2023

Duration 1 hour (2 PM - 3 PM)

Documentation is allowed, including chatGPT, except your mate.

Please read the following rules:

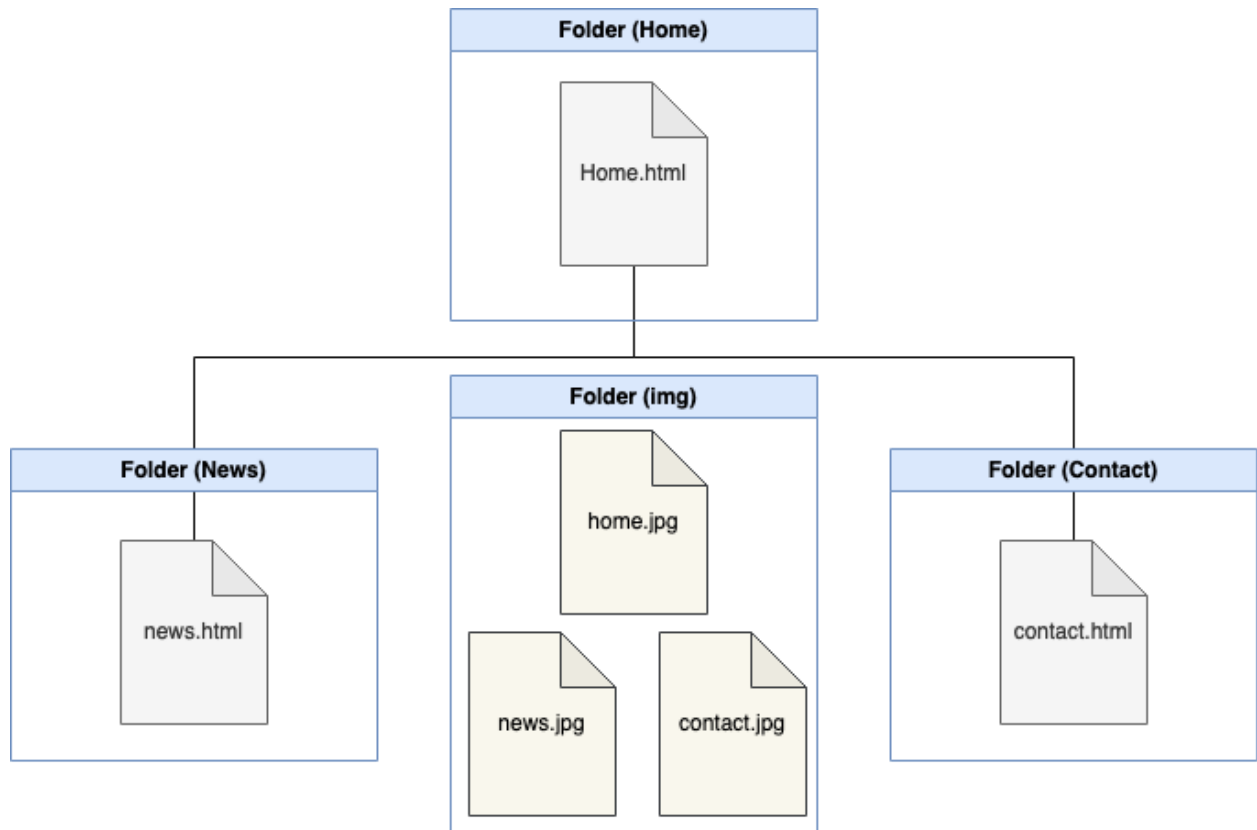

- *You have to create files on your computer*
- *You have one hour to submit your work,*
- *Each minute late will result in a point loss.*
- *No excuses will be accepted for late submissions, so be sure to manage your time well.*
- *The submission will be done exclusively via classroom, no other means will be accepted.*
- *0/20 will be given for all similar files.*

Step 1 (HTML/CSS/Links)

Let it be the following file ([download the template](#)),

Please make the following changes:

- The menu should be fixed (on top),
- The color of the navbar must be #054065
- Create two other files identical to this one to obey the following tree structure: Tree image below.

-- Note that the blue designates a folder, a gray designates an html file and a beige designates an image

-- Make sure that all three files are accessible.

- Each file must contain the image that has the name of the menu item (news.jpg and contact.jpg)

Step 2 (HTML/PHP)

Please create a form as shown in the following figure: ([image below](#))

Creating Page

Menu items

Menu item#1:

Menu item#2:

Menu item#3:

Page #1 (Home)

Title:

Content:

Page #2 (Service)

Title:

Content:

Page #3 (Document)

Title:

Content:

If you click the "Submit" button, the form-data will be sent to a page called "Home.php".

The following inputs will have the following actions:

- Menu item #1 will change the name of the menu "Home" in all pages
- Menu item #2 will change the name of the "News" menu in all pages
- Menu item #3 will change the name of the "Contact" menu in all pages
- Page #1 Title : Will change the title <h1> of the "Home" page
- Page #1 Content: Will change the title <h2> of the "Home" page
- Page #2 Title: Will change the title <h1> of the page "News"
- Page #2 Content: Will change the title <h2> of the page "News"
- Page #3 Title: Will change the title <h1> of the "Contact" page
- Page #3 Content: Will change the title <h2> of the "Contact" page

The submission of the form will be done in the file Home.php (extention .html needs to be changed)

Be sure to handle the post/get errors. If the data is inaccessible, display a link back to the form.

Good luck to all
